

TWO THOUSAND

Bloom Middle School

## **GOOD-BYE BLOOM MIDDLE SCHOOL**

The closing of the 1999-2000 school year will also be the closing of Bloom Middle School as we know it now. The start of the 1993-1994 school year saw the first big change for the district. The new high school was in full operation, Vernon became a K-3 primary building and our building became a 4-8 Middle School.

With the opening of the new grade school in the fall of 2000 and grades 4-6 moving into the new building, only the 7<sup>th</sup> and 8<sup>th</sup> grades will be left in the middle school building. The junior high addition to the high school should be completed by the fall of 2001.

Throughout this yearbook you will see pictures of our students and of all the activities that took place this last year. You will also be able to read comments from the students, faculty, and staff on how they feel about the closing of this building, which is so rich in the history of education in the Bloom-Vernon District.

Pictured below is the class of 2005. This is the last group of students who will complete grades 4-8 in this building.

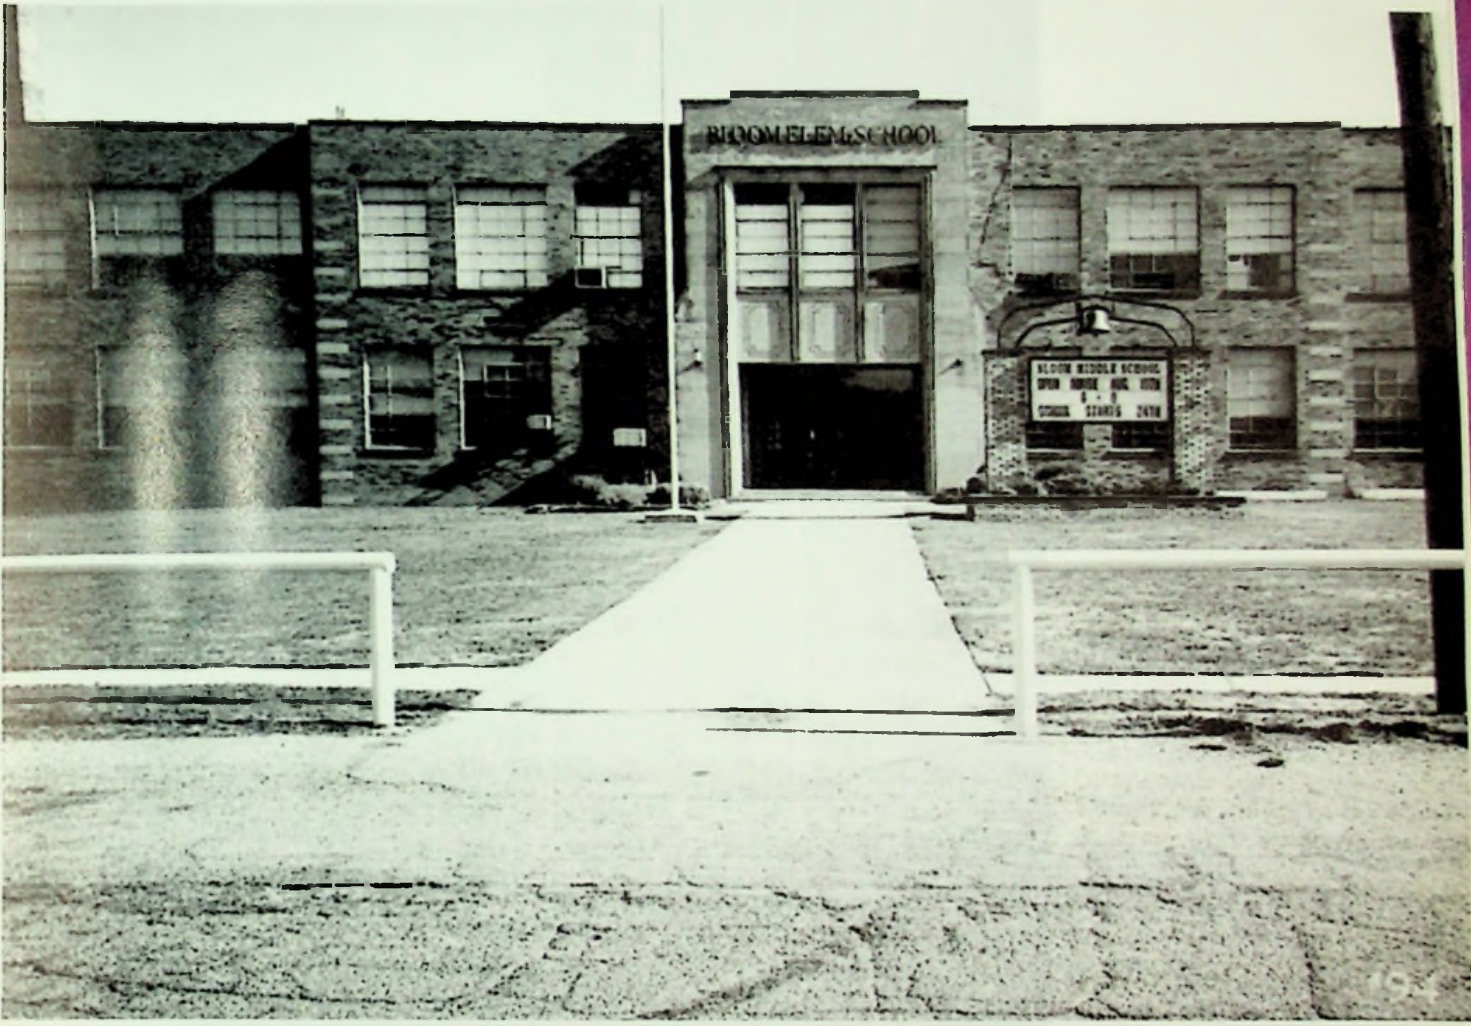

INDUSTRIAL ARCHITECTURE

Industrial architecture is a branch of architecture that deals with the design and construction of buildings and structures used in industry, manufacturing, and commerce. It is a discipline that combines the principles of architecture with the requirements of functional efficiency, safety, and durability. The design process for industrial buildings often involves a close collaboration between architects and engineers to ensure that the building meets the specific needs of the industry it serves. Key considerations include the layout of the building, the placement of machinery and equipment, and the provision of adequate ventilation, lighting, and access. The resulting structures are often large, multi-story buildings with a focus on practicality and functionality over aesthetic ornamentation.

# THOUGHTS AND FEELINGS ON MOVING

Ron Puckett - custodian  
"No more backed up sewer, no more climbing on the roof. After 13 years this building will be sadly missed." (Then he chuckled.)

Zane Faulkner - 5<sup>th</sup> grader  
"I'm glad we're leaving! I don't like the cafeteria because it stinks. I'm happy about the new playgrounds too."

Josh Campbell - 5<sup>th</sup> grader  
"I think it's going to be cool, the bathrooms there won't flood! We'll be able to have a bigger library and classrooms, and better playgrounds. I'm happy to be leaving."

Kara Cayton - 4<sup>th</sup> grader  
"We really need a new school. This school is in bad shape. My dad went to school here! I'm glad to be leaving."

Daniel Basham - 4<sup>th</sup> grader  
"I think we need a new school because teachers have smashed their fingers when opening the windows, and glass flies out. We need a new playground and basketball court. We also need a new library for research. I'm happy about the move."

Mr. Burton - teacher  
"No more bug races in the bathroom."

Phyllis Lockert - cook  
"After 25 years I will sure miss it!"

Mrs. Kuhner - secretary  
"In 12 years I've seen a lot of students and staff come and go, but I've felt a continuous sense of unity and caring within these walls. This has been my first work experience in a school and I have always enjoyed being a part of it. I'll miss bloom Middle School. I know we're moving forward to a bright future, but every once in a while, I'll look back..... and smile."

Mrs. Castle - teacher  
"Yes, I've been here a long time and have lots of wonderful memories but I'm also very excited about moving to a new building."

Mrs. Barnett - teacher  
"This is the only building I have ever taught in. I have one more year left here - it will be hard to move after spending 26 years here. I will miss the 'comaradary' of the current staff."

Mrs. Butts - teacher  
"I have spent many, many years here as a student and a teacher. Lots of fun memories."
