DON GAUNCE

I would like to congratulate the boys participating in the sports activities of this high school, and also the parents of these students who have contributed so much toward a successful year in athletics. The season might not have turned out the way we would have liked it to, but no season ever turns out right.

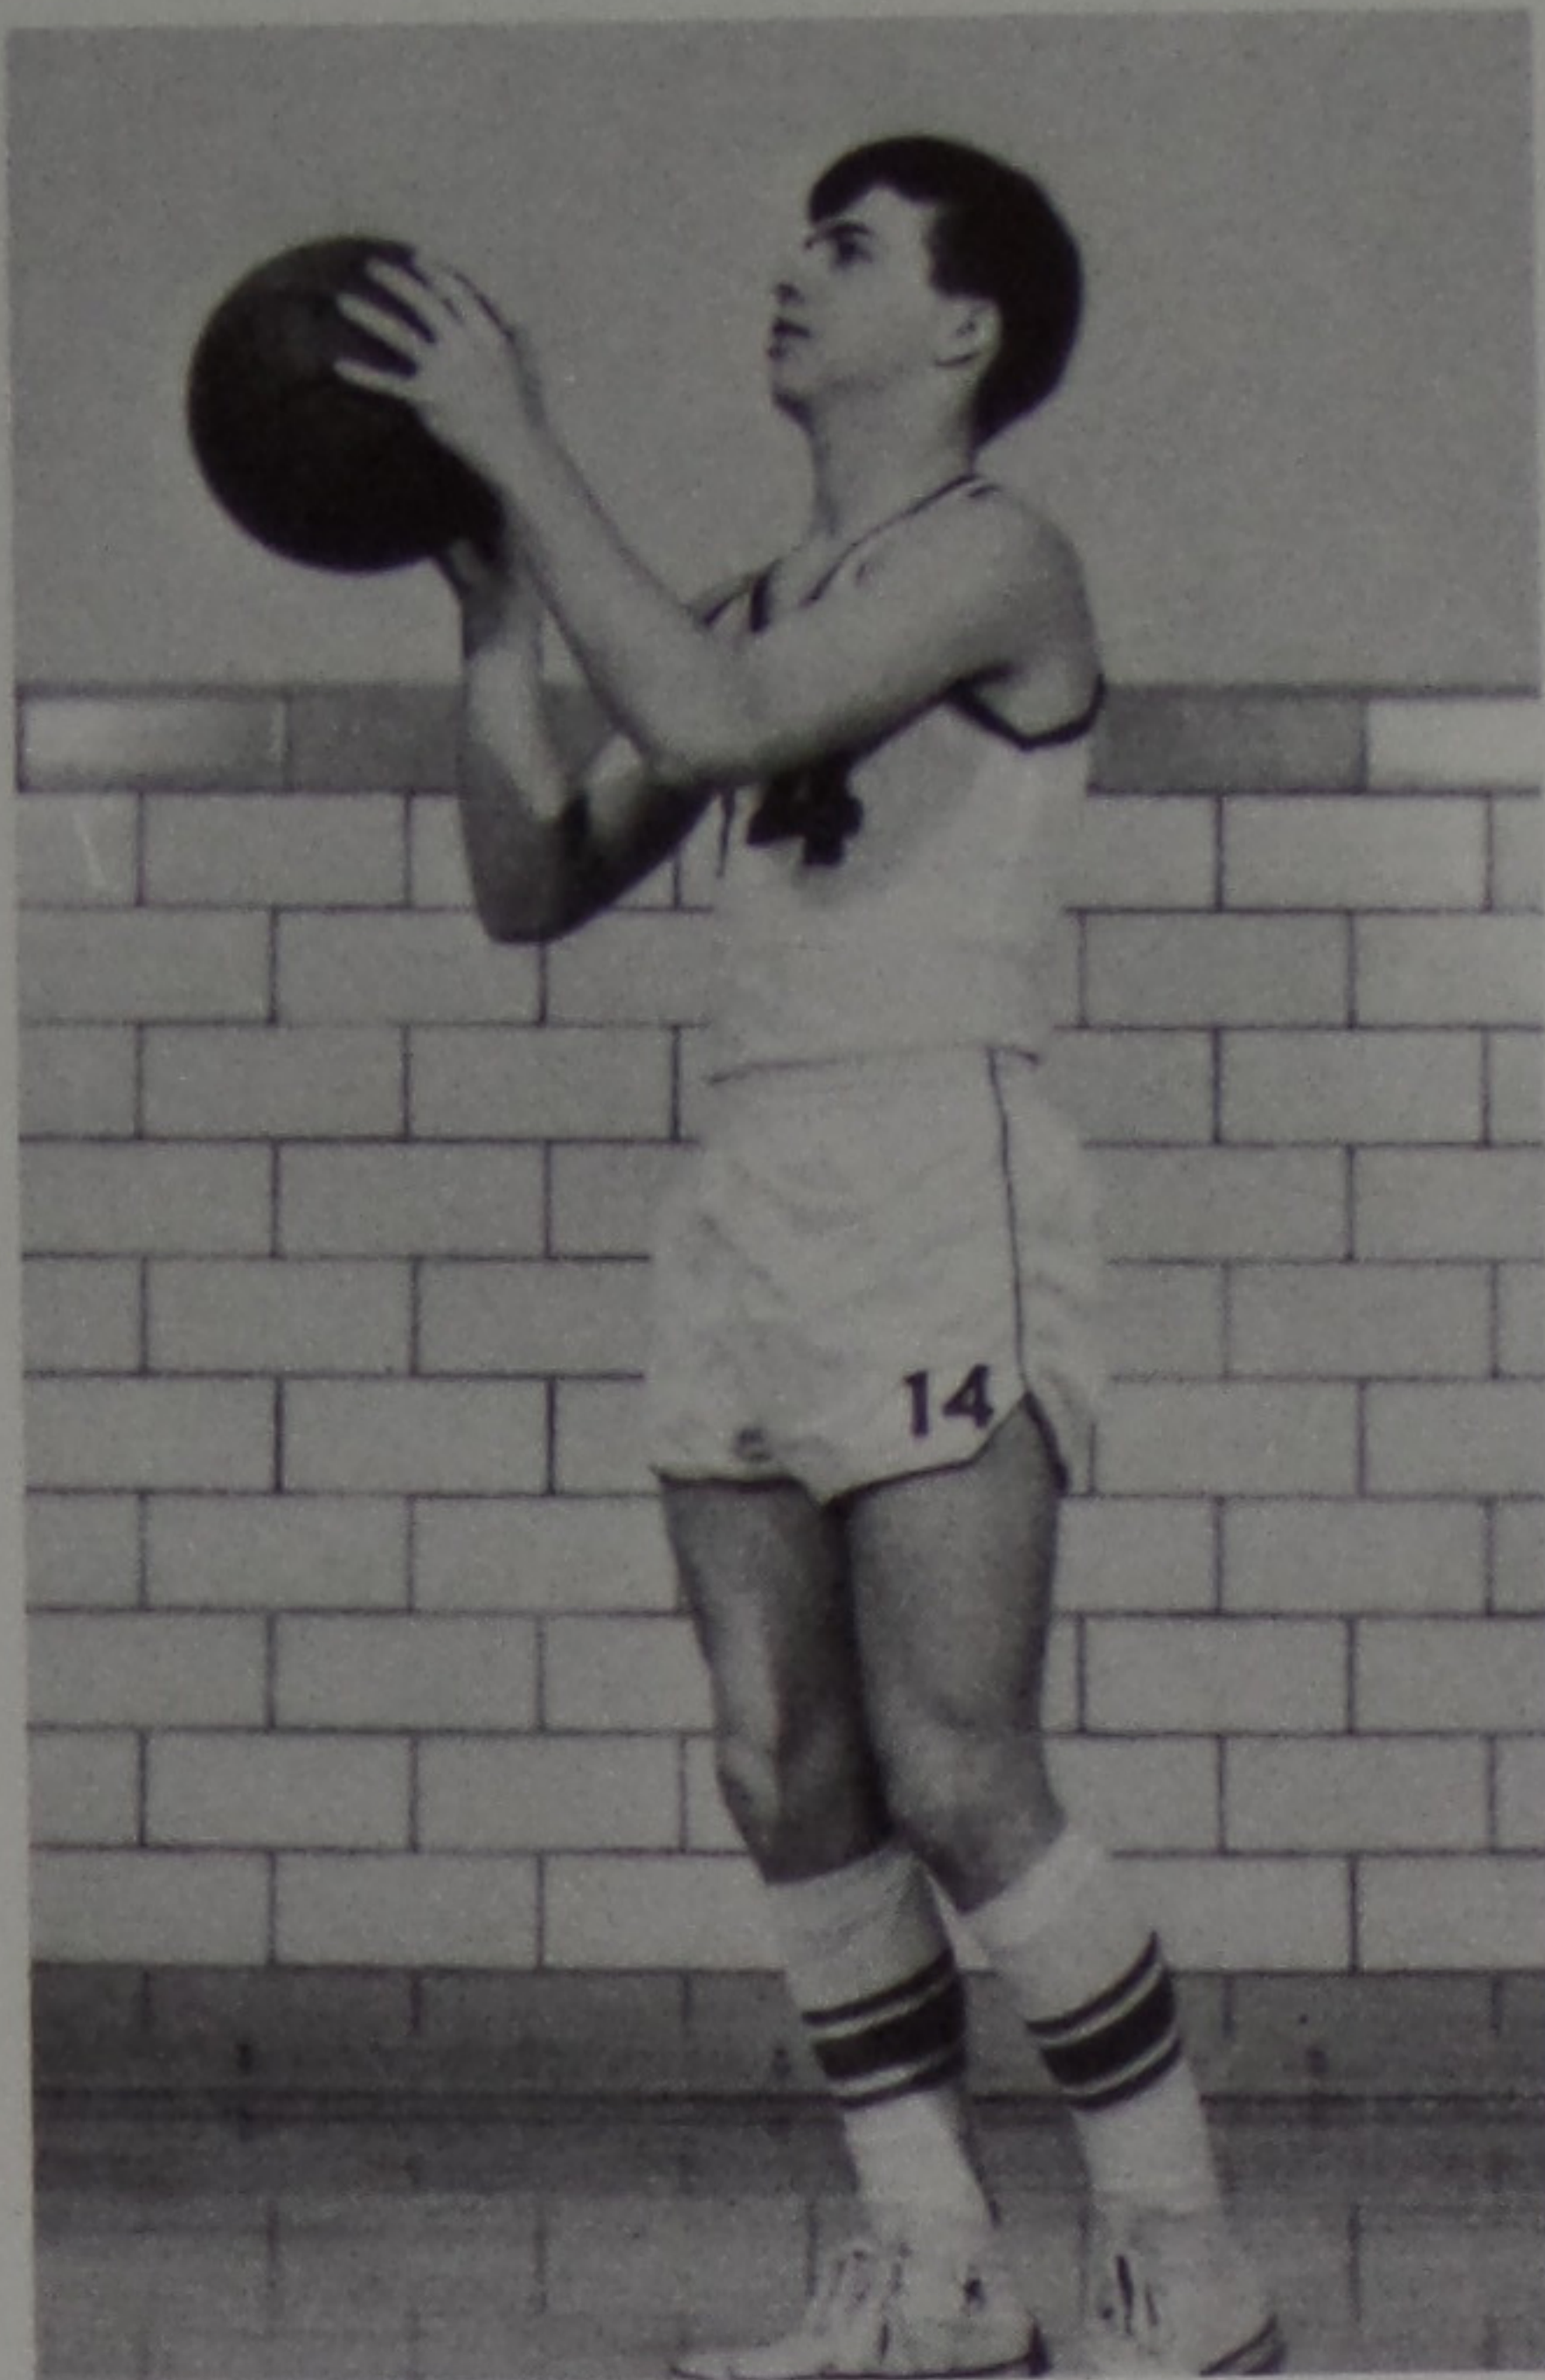

The boys played very hard and in my opinion they couldn't have had better spirit or team-work. The boys played good ball and were very good sports all through the season, win or lose. All in all I think that this was a pretty good year.
