**Chilean Miners:** On August 5, 2010, a cave-in occurred at the San José copper-gold mine in the Atacama Desert near Copiapó, Chile. The accident left 33 men trapped 2,300 ft below ground. The miners survived underground for a record 69 days. All 33 were rescued and brought to the surface on October 13, 2010.

The 2010 **Haiti Earthquake** was a catastrophic 7.0 magnitude earthquake, with an epicenter near the town of Leogâne, approximately 25 km (16 miles) west of Port-au-Prince, Haiti's capital. The earthquake occurred at 4:53 pm local time on Tuesday, January 12, 2010. By January 24, at least 52 aftershocks measuring 4.5 or greater had been recorded. An estimated three million people were affected by the quake; the Haitian government reported that an estimated 316,000 people had died, 300,000 had been injured and 1,000,000 made homeless. The death toll has also been suggested to be much lower at somewhere between 92,000 and 220,000, with around 1.5 million to 1.8 million homeless. The government of Haiti also estimated that 250,000 residences and 30,000 commercial buildings had collapsed or were severely damaged.

**Facebook** surpassed Google for the first time as the most visited website in the United States for most of 2010. The social network site edged out Google.com with 8.9 percent of all U.S. visits between January and November 2010, while Google.com ranked second with about 7.2 percent of all visits, according to online measurement service Experian Hitwise. Facebook's move to the top spot shows just how quickly the site has grown in popularity. Within the span of six years, Facebook has become the world's largest Web social network with roughly half a billion users worldwide.

On April 14, 2010 **Eyjafjallajökull** resumed erupting after a brief pause, this time from the top crater in the center of the glacier, causing meltwater floods to rush down the nearby rivers, and requiring 800 people to be evacuated. This eruption was explosive in nature, due to melt water getting into the volcanic vent. This second eruption threw volcanic ash several miles up in the atmosphere which led to air travel disruption in northwest Europe for six days including the closure of airspace over many parts of Europe.

**BP Oil Spill:** One of the largest oil spills in the history of the world mucked up the Gulf of Mexico for three months this summer. Thirteen people died, and the animal and tourism casualties along the coast remain immeasurable. The Deepwater Horizon oil spill was a disaster that had everyone from Kevin Costner and his miracle machine to the adorable, albeit oil-covered animals in Dawn dishwashing soap commercials rallying for a solution to the disaster. Meanwhile, about 170 million gallons of crude oil leaked into the ocean after the explosion on a British Petroleum run rig. Although the oil well was officially sealed in mid-September, the staying effects remain in particular on Louisiana's shoreline. Nearly 7,000 dead animals were collected post-spill and local businesses suffered, and the spill required a \$20 billion spill response fund put forth by British Petroleum.

But, it was a 9.5 inch tall astronaut and cowboy pairing that emerged victorious at the box office. **Toy Story 3** was the world's highest-grossing hit in 2010, a year dominated by family films. Seven of the Top 10 were aimed at children or young teenagers, with the Leonardo DiCaprio thriller *Inception* the only grown-up offering in the top five spots.

Jennifer Grey's performance in *The Contender*, a survival contest, won the Golden Globe for Best Actress. Grey, 50, who co-starred with the late Patrick Swayze in the 1987 movie

It was a great year for **Taylor Swift**, who had two albums in the top 10 for the year. She also won 4 Grammy Awards, 3 Teen Choice Awards and 1 People's Choice award, along with having a #1 movie at the box office.

One of the strangest seasons of "American Idol" came to a dramatic, and emotional, finish as **Lee DeWyze** was named the winner of the nation's biggest singing competition.

The Illinois paint store worker, who wowed Idol fans with his booming rocker growl and down-to-earth modesty, captured the "American Idol" Season 9 title over longtime season front-runner **Crystal Bowersox**, the cool, dreadlocked single mother with the raspy folk-rock voice.

**Beatles** fans said they wanted a revolution, and this year, they finally got their wish. On November 16, three weeks before the world marked the 30th anniversary of John Lennon's death, the Fab Four finally entered the digital age and released their entire catalog on iTunes. Fans across the universe bought the band's music in droves: Apple reported that 2 million individual songs and 450,000 full albums were sold during the first week.

You could run and you could hide, but there was no escaping Bieber fever in 2010. Sixteen-year-old pop singer **Justin Bieber** went from a quickly rising tween phenom late last year to an omnipresent force. He dropped "My World 2.0," the fifth best-selling album of the year, and got everyone singing "Baby." He made three-year-olds burst into tears at the very thought of him. People everywhere -- even star NFL quarterbacks -- started sporting the Bieber swoop haircut. He released a memoir, nail polish, scented dog tags and dolls, and he filmed a 3D movie about his life to be released in February. "American Idol" brought its minimum age requirement down to 15. He won four American Music Awards, including artist of the year. Need we say more?

Apple released the **iPad** in April 2010, and sold 3 million of the devices in 80 days. According to a report released by Strategy Analytics, the Apple iPad had gained a 95 percent share of Tablet PC sales at the end of second quarter 2010. During the second quarter 2010, Apple had sold 4.19 million iPads around the world.

Atoms of **antimatter**, long the stuff of science fiction, have been trapped for the first time, European researchers at the Large Hadron Collider say. Scientists at the European Organization for Nuclear Research (CERN) have trapped and held 38 anti-hydrogen atoms in place, each for a fraction of a second, the BBC reported. While anti-hydrogen has been produced before, it was instantly destroyed when it encountered normal matter. The CERN team, writing in the journal Nature, says the ability to study such antimatter atoms will allow previously impossible tests of fundamental laws of physics.

Activision Blizzard confirmed **Call of Duty: Black Ops** set a new five-day sales record, grossing more than \$650 million, officially making it the biggest entertainment launch in history. The game made \$360 million on launch day in the U.S. and U.K. alone. Call of Duty is the first entertainment franchise to break two consecutive five-day launch records.

The **solar eclipse** of January 15, 2010 was an annular eclipse of the Sun with a magnitude of 0.9190. A solar eclipse occurs when the Moon passes between Earth and the Sun, thereby totally or partially obscuring the image of the Sun for a viewer on Earth.

Microsoft in 2010 released its much anticipated "Halo: Reach" video game, but 25 years ago, it was all about **Super Mario Bros.** The original game sold 40.24 million copies worldwide, popularized the side-scrolling format, and kicked off elements of the Mushroom Kingdom still in use today.

**Chile earthquake** in February was so powerful that it likely shifted an Earth axis and shortened the length of a day, NASA announced. By speeding up Earth's rotation, the magnitude 8.8 earthquake—the fifth strongest ever recorded, according to the USGS—should have shortened an Earth day by 1.26 millionths of a second, according to new computer-model calculations by geophysicist Richard Gross of NASA's Jet Propulsion Laboratory in California. For comparison, the same model estimated that the magnitude 9 Sumatra earthquake in December 2004 shortened the length of a day by 6.8 millionths of a second. Gross also estimates that the Chile earthquake shifted Earth's figure axis by about three inches (eight centimeters).

The 2010 Stanley Cup playoffs ended on June 9, 2010, with the **Chicago Blackhawks** defeating the Philadelphia Flyers 4 games to 2 to win their fourth championship and their first since 1961.

The 2010 WNBA finals ended with the **Seattle Storm** beating the Atlanta Dream in Atlanta in a three-game sweep. This was only the second time in WNBA history that a team won the Finals three games to none.

The **New Orleans Saints** have won Super Bowl XLIV. They beat the Indianapolis Colts 31-17 at Sun Life Stadium in South Florida. Saints quarterback Drew Brees was 32-of-39 for 288 yards and two touchdowns. But it was the big 75-yard interception return for a touchdown by wideback Tracy Porter that sealed the deal.

The **Jimmie Johnson** dynasty in the NASCAR Sprint Cup series stretched to half a decade at Homestead-Miami Speedway as the most dominant driver the sport has ever seen won his fifth straight championship with a second-place finish in the Ford 400 season finale.

It's been a long time coming — 53 years, to be exact. The **San Francisco Giants** won the World Series — their first since the team moved to San Francisco in 1958 — with a 3-1 win over the Texas Rangers in Game 5 at Rangers Ballpark in Arlington, Texas.

Vera Zvonareva's **Wimbledon** triumph was the first straight title for a Russian women's title after reigning seventh-seeded Russian Vera Zvonareva 6-2 6-1 in the most lopsided triumph in 34 years. The second-seeded Clijsters hit 17 winners while making just 15 unforced errors against a nervous Zvonareva to match the three games lost by American Chris Evert in her 6-3 6-0 demolition of Australian Evonne Goolagong in 1976.

The **Los Angeles Lakers** became BACK-TO-BACK NBA Champions as they defeated the Boston Celtics 83-79 in Game 7 of the 2010 NBA Finals at STAPLES Center. It's the Lakers' 16th NBA Championship, Phil Jackson's 11th championship as a coach and Kobe Bryant's 5th championship ring.

Since losing to Stanford in the Final Four in 2008, the **UConn Lady Huskies** didn't lose a game until December 2010. This loss was also against Stanford. They went 39-0 during the 2008-09 season, winning their 6th national championship, and followed it up in 2009-2010 with another 39-0 season and their 7th national title. Their winning streak went to 90 games, lasting until a 71-59 loss to Stanford on December 30, 2010. Therefore, the UConn Huskies had the longest winning streak in college basketball (men's or women's) history.

**Duke** beat Butler 61-59 for the national championship, a win that wasn't secure until after the buzzer sounded - when Gordon Hayward's half-court, 3-point heave for the win barely missed to leave tiny Butler one cruel basket short of the Hollywood ending.

**LeBron James** put the NBA on notice in July, joining Dwyane Wade and Chris Bosh in Miami. Ending weeks of will-he-or-won't-he speculation, the two-time MVP said that he's decided to join the Heat and leave the Cavaliers after an unsuccessful seven-year quest for the ring he covets.

The 2010 Citicorp BCS National Championship Game was the finale of the 2009 NCAA Division I FBS football season, and was played between the Texas Longhorns and the **Alabama Crimson Tide**. Alabama won the championship game 37 to 21.

The 2010 College World Series began on June 19, 2010 and concluded on June 29 in Omaha, Nebraska at Rosenblatt Stadium. **South Carolina** won the championship after defeating UCLA.

The United States sent 215 athletes to compete in all 15 sports at the 2010 **Winter Olympics** in Vancouver, British Columbia, Canada. The United States 215 athletes was the most of any nation at the 2010 Olympics, just topping the host country of Canada, who provided 208 athletes. The U.S. finished the 2010 Olympics with nine gold, 15 silver and 13 bronze medals, for a total of 37 medals, the most of any nation.

The 2010 Masters Tournament, played April 8-11 at Augusta National Golf Club, was the 74th Masters Tournament. This was the first major championship of the 2010 season. **Phil Mickelson** won his third Masters title by three shots over runner-up Lee Westwood.

The 2010 FIFA World Cup was the 19th FIFA World Cup, the world championship for men's national association football teams. It took place in South Africa from June 11 to July 11, 2010. In the final, **Spain**, the European champions, defeated third-time finalists the Netherlands 1-0 after extra time, with Andres Iniesta's goal in the 116th minute giving Spain their first world title, the first time that a European nation has won the tournament outside its home continent.

**Kinect** for Xbox 360 is a "controller-free gaming and entertainment experience" by Microsoft for the Xbox 360 video game platform. Based around a webcam-style add-on peripheral for the Xbox 360 console, it enables users to control and interact with the Xbox 360 without the need to touch a game controller, through a natural user interface using gestures and spoken commands. The project is aimed at broadening the Xbox 360's audience beyond its typical gamer base. Kinect competes with the Wii Remote Plus and PlayStation Move and PlayStation Eye motion control systems for the Wii and PlayStation 3 home consoles, respectively.

**What's Next:** His next project hasn't yet been announced -- but given his recent track record, it's bound to be huge.

**Did You Know?** Smith is a youth ambassador for Project Zambia which helps children orphaned by AIDS in Africa.

**Emma Watson**

Age: 20

**What She's Done:** Has starred in five tiny, unknown films based on the 'Harry Potter' book series -- well, that's if "tiny" meant "huge" and "unknown" meant "global phenomenon" -- plus the 2008 animated film 'Tale of Despereaux.'

**What's Next:** After 'Harry Potter' finales 'Deathly Hallows: Part 1' and 'Part 2' (Jul. 15, 2011), she'll say sayonara to witches and wizards and star in her first post-'Potter' film, 'My Week With Marilyn,' which is one of two upcoming Marilyn Monroe biopics.
